

# POLYPROPYLENE CHANNEL WITH PLASTIC SLOTTED GRATING

**A15 EN 1433**

Technical sections of Plastic drain channel with plastic slotted grating

| length ( mm ) | width ( mm ) | height ( mm ) | vertical outlet         |
|---------------|--------------|---------------|-------------------------|
| 1000          | 125          | 137           | 6 x Ø 96.5   2 x Ø 59.5 |

## MAIN CHARACTERISTICS

- Item No : HS12580-L
- The drains are made of polypropylene material
- Small weight makes transport and assembly of the drains easy
- Smooth surface provides high hydraulic properties
- High chemical resistance
- Non-soaking
- Drains connected with tongue and groove
- Correct assembly guarantees high load durability
- Highly aesthetic
- Load class: A15

## ADDITIONAL ACCESSORIES

- consolidated system drains
- full end drains
- drain end with place for a stub-pipe
- lower outlet

## APPLICATION AREAS

Pedestrian and cyclist paths, garden, terraces, premises entrances
