

POLYPROPYLENE CHANNEL WITH PLASTIC GRATING

A15 EN 1433

Technical sections of Plastic drain channel

length (mm)	width (mm)	height (mm)	vertical outlet
1000	125	80	6 x Ø 96.5 2 x Ø 59.5

MAIN CHARACTERISTICS

- The drains are made of polypropylene material
- Small weight makes transport and assembly of the drains easy
- Smooth surface provides high hydraulic properties
- High chemical resistance
- Non-soaking
- Drains connected with tongue and groove
- Correct assembly guarantees high load durability
- Highly aesthetic
- Load class: A15

ADDITIONAL ACCESSORIES

- consolidated system drains
- full end drains
- drain end with place for a stub-pipe
- lower outlet

APPLICATION AREAS

Pedestrian and cyclist paths, garden, terraces, premises entrances
